## NEW PORTFOLIO ANNOUNCEMENT & SUCCESSION PLANNING

As part of our commitment for **portfolio expansion and technology refresh**, we announce the discontinuation of the FLEXIDOME IP 3000i series. Our next-generation **FLEXIDOME 3100i IR** cameras bring **improved UX and advanced deep-learning-based video analytics** for reliable detection of persons and vehicles. This upgrade aims to offer you a more comprehensive solution for your security requirements.

To assist you in a smooth transition to our new product series, we're offering options for last-time purchases of the existing models or providing more advanced alternatives to ensure the stability of your surveillance system supply. In case of any further clarification or support needs please contact your local sales representative.
