Regulatory Information

Europe

CE This product complies with the applicable CE marking directives and harmonized standards:

- Electromagnetic Compatibility (EMC) Directive 2004/108/EC. See Electromagnetic Compatibility (EMC).
- Low Voltage (LVD) Directive 2006/95/EC. See Safety.
- Restrictions of Hazardous Substances (RoHS) Directive 2011/65/EU. See Disposal and Recycling.

A copy of the original declaration of conformity may be obtained from Axis Communications AB. See Contact Information.

Electromagnetic Compatibility (EMC)

This equipment has been designed and tested to fulfill applicable standards for:

- Radio frequency emission when installed according to the instructions and used in its intended environment.
- Immunity to electrical and electromagnetic phenomena when installed according to the instructions and used in its intended environment.

USA

Using an unshielded network cable (UTP) – This equipment has been tested using an unshielded network cable (UTP) and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications.

Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

Using a shielded network cable (STP) – This equipment has also been tested using a shielded network cable (STP) and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To be used in a residential area or a demanding electrical environment, the product shall be connected using a shielded network cable (STP) that is properly grounded.

Canada

This digital apparatus complies with CAN ICES-3 (Class B). The product shall be connected using a shielded network cable (STP) that is properly grounded.

Cet appareil numérique est conforme à la norme CAN NMB-3 (classe B). Le produit doit être connecté à l'aide d'un câble réseau blindé (STP) qui est correctement mis à la terre.

Europe

This digital equipment fulfills the requirements for RF emission according to the Class B limit of EN 55022. The product shall be connected using a shielded network cable (STP) that is properly grounded.

This product fulfills the requirements for emission and immunity according to EN 50121-4 and IEC 62236-4 railway applications.

This product fulfills the requirements for immunity according to EN 61000-6-1 residential, commercial and light-industrial environments.

This product fulfills the requirements for immunity according to EN 61000-6-2 industrial environments.

This product fulfills the requirements for immunity according to EN 55024 office and commercial environments.

Australia/New Zealand

This digital equipment fulfills the requirements for RF emission according to the Class B limit of AS/NZS CISPR 22. The product shall be connected using a shielded network cable (STP) that is properly grounded.

Korea – 이 기기는 가정용(B급) 전자파적합기기로서 주로 가정에서 사용하는 것을 목적으로 하며, 모든 지 역에서 사용할 수 있습니다. 적절히 접지된 STP (shielded twisted pair) 케이블을 사용하여 제품을 연결 하십시오.

Japan – この装置は、クラスB 情報技術装置です。この装置は、家庭環境で使用することを目的としていますが、この装置がラジオやテレビジョン受信機に近接して使用されると、受信障害を引き起こすことがあります。取扱説明書に従って正しい取り扱いをして下さい。本製品は、シールドネットワークケーブル(STP)を使用して接続してください。また適切に接地してください。

Safety

This product complies with IEC/EN/UL 60950-1, Safety of Information Technology Equipment. The product shall be grounded either through a shielded network cable (STP) or other appropriate method.

Photobiological Safety

This product fulfills the requirements for photobiological safety according to IEC/EN 62471 (risk group 1).

Disposal and Recycling

When this product has reached the end of its useful life, dispose of it according to local laws and regulations. For information about your nearest designated collection point, contact your local authority responsible for waste disposal. In accordance with local legislation, penalties may be applicable for incorrect disposal of this waste.

Europe

This symbol means that the product shall not be disposed of together with household or commercial waste. Directive 2012/19/EU on waste electrical and electronic equipment (WEEE) is applicable in the European Union member states. To prevent potential harm to human health and the environment, the product must be disposed of in an approved and environmentally safe recycling process. For information about your nearest designated collection point, contact your local authority responsible for waste disposal. Businesses should contact the product supplier for information about how to dispose of this product correctly. This product complies with the requirements of Directive 2011/65/EU on the restriction of the use of certain hazardous substances in electrical and electronic equipment

(RoHS).

China

This product complies with the requirements of the legislative act Administration on the Control of Pollution Caused by Electronic Information Products (ACPEIP).

Safeguards

Please read through this Installation Guide carefully before installing the Axis product. Keep the Installation Guide for further reference.

NOTICE

- This Axis product shall be used in compliance with local laws and regulations.
- The Axis product should be installed by a trained professional. Observe relevant national and local regulations for the installation.
- Store the Axis product in a dry and ventilated environment.
- Avoid exposing the Axis product to vibration, shocks or heavy pressure. Do not install the product on unstable brackets, unstable or vibrating surfaces or walls, since this could cause damage to the product.
- Only use applicable tools when installing the Axis product; excessive force could cause damage to the product.
- Do not use chemicals, caustic agents, or aerosol cleaners. Use a damp cloth for cleaning.
- Use only accessories that comply with technical specification of the product. These can be provided by Axis or a third party.
- Use only spare parts provided by or recommended by Axis.
- Do not attempt to repair the product by yourself, contact

- Axis or your Axis reseller for service matters.
- Use a limited power source (LPS) with either a rated output power limited to <100 W or a rated output current limited to <5 A.

Transportation

NOTICE

- When transporting the Axis product, use the original packaging or equivalent to prevent damage to the product.

Battery Replacement

This Axis product uses a 3.0 V CR2032 lithium battery as the power supply for its internal real-time clock (RTC). Under normal conditions this battery will last for a minimum of 5 years. Low battery power affects the operation of the RTC, causing it to reset at every power-up. A log message will appear when the battery needs replacing. The battery should not be replaced unless required!

If the battery does need replacing, please contact www.axis.com/techsup for assistance.

⚠ WARNING

- Dispose of used batteries according to the manufacturer's instructions.

NOTICE

- Risk of explosion if battery is incorrectly replaced.
- Replace only with the same or equivalent battery, as recommended by the manufacturer.

Dome Cover Cleaning

NOTICE

- Be careful not to scratch or damage the dome cover. Do not clean a dome cover that looks clean to the eye and never polish the surface. Excessive cleaning could damage the surface.
- For general cleaning of a dome cover it is recommended to use a non-abrasive, solvent-free neutral soap or detergent with water and a soft cloth. Rinse well with clean lukewarm water. Dry with a soft cloth to prevent water spotting.
- Never use harsh detergents, gasoline, benzene or acetone etc. and avoid cleaning in direct sunlight or at elevated temperatures.

Français

Mesures de sécurité

Lisez attentivement le présent Guide d'installation avant d'installer le produit Axis. Conservez le Guide d'installation pour une utilisation ultérieure.

AVIS

- Ce produit Axis doit être utilisé conformément aux lois et réglementations locales en vigueur.
- Le produit Axis doit être installé par un professionnel qualifié. Veuillez vous conformer aux règlements nationaux et locaux relatifs à l'installation.
- Conservez le produit Axis dans un environnement sec et aéré.
- Évitez d'exposer le produit Axis aux vibrations, aux chocs ou à une forte pression. N'installez pas le produit sur un support instable, ou des surfaces ou des murs instables ou vibrants, car cela pourrait l'endommager.
- N'utilisez que les outils applicables pour installer le produit Axis ; une force excessive pourrait endommager le produit.
- Pour le nettoyage, n'utilisez ni produits chimiques, ni substances caustiques ou aérosols. Utilisez un chiffon humide pour le nettoyage.

- N'utilisez que des accessoires conformes aux caractéristiques techniques du produit. Ceux-ci peuvent être fournis par Axis ou par un fournisseur tiers.
- Utilisez uniquement des pièces de rechange fournies ou recommandées par Axis.
- Ne tentez pas de réparer le produit vous-même, contactez Axis ou votre revendeur Axis pour toute réparation.
- Utilisez une source d'alimentation limitée (LPS) dont la puissance de sortie nominale est limitée à <100 W ou dont le courant de sortie nominal est limité à <5 A.
- Le produit doit être connecté à l'aide d'un câble réseau blindé (STP). Tous les câbles reliant le produit au commutateur réseau doivent être blindés (STP) et destinés à leur usage spécifique. Assurez-vous que le commutateur réseau est convenablement mis à la terre.

Transport

AVIS

- Pour transporter le produit Axis et éviter de l'endommager, utilisez l'emballage d'origine ou un emballage équivalent.

Remplacement des piles

Ce produit Axis nécessite une pile au lithium CR2032 de 3,0 V pour l'alimentation de son horloge en temps réel interne. Dans des conditions normales d'utilisation, cette pile est censée durer au moins 5 ans. Si la pile est faible, le fonctionnement de l'horloge en temps réel peut être affecté et entraîner sa réinitialisation à chaque mise sous tension. Un message enregistré apparaît lorsque la pile doit être remplacée. Ne remplacez la pile qu'en cas de nécessité ! Si la pile doit être remplacée, veuillez contacter www.axis.com/techsup pour obtenir de l'aide.

⚠ AVERTISSEMENT

- Jetez les piles usagées conformément aux consignes du fabricant.

AVIS

- Le remplacement incorrect de la pile peut entraîner un risque d'explosion.
- Remplacez la pile par une pile identique ou équivalente uniquement, en respectant les recommandations du fabricant.

Nettoyer la bulle du dôme

AVIS

- Veuillez à ne pas rayer ou endommager la bulle du dôme. Ne nettoyez pas la bulle du dôme si elle semble propre à l'œil nu et ne frottez jamais sa surface. Un nettoyage excessif peut l'endommager.
- Pour le nettoyage général de la bulle du dôme, il est recommandé d'utiliser un savon ou un détergent neutre sans solvant, non abrasif, avec de l'eau et un chiffon doux. Rincez abondamment avec de l'eau tiède et propre. Séchez à l'aide d'un chiffon doux pour éviter les tâches d'eau.
- N'utilisez jamais de détergents forts, d'essence, de benzène ou d'acétone, etc. et évitez toute exposition directe aux rayons du soleil ou à des températures élevées lors du nettoyage.

Deutsch

Sicherheitsvorkehrungen

Bitte lesen Sie diese Installationsanleitung sorgfältig durch, bevor Sie mit der Installation des Axis Produkts beginnen. Halten Sie die Installationsanleitung bereit, falls Sie darauf zurückgreifen müssen.

HINWEIS

- Verwenden Sie dieses Axis-Produkt unter Beachtung der vor Ort geltenden rechtlichen Bestimmungen.
- Das Axis Produkt sollte nur von geschultem Fachpersonal installiert werden. Beachten Sie bei der Montage die geltenden nationalen und lokalen Bestimmungen.
- Lagern Sie das Axis-Produkt in einer trockenen und belüfteten Umgebung.
- Setzen Sie das Axis Produkt keinen Vibrationen, Erschütterungen oder starkem Druck aus. Installieren Sie das Produkt nicht an instabilen Halterungen oder instabilen oder vibrierenden Oberflächen oder Mauern, da dadurch das Produkt beschädigt werden könnte.
- Verwenden Sie bei der Installation des Axis Produkts nur geeignetes Werkzeug; zu hoher Kraftaufwand kann das Produkt beschädigen.
- Verwenden Sie keine chemischen, ätzenden oder aerosolhaltigen Reinigungsmittel. Verwenden Sie zur Reinigung ein feuchtes Tuch.
- Verwenden Sie nur Zubehör, das den technischen Spezifikationen des Produkts entspricht. Dieses ist von Axis oder Drittanbietern erhältlich.
- Verwenden Sie nur Ersatzteile, die von Axis empfohlen bzw. bereitgestellt wurden.
- Versuchen Sie nicht, das Produkt selbst zu reparieren. Wenden Sie sich bei Service-Angelegenheiten an Axis oder an Ihren Axis-Händler.
- Verwenden Sie eine Stromquelle mit begrenzter Leistung (LPS), entweder mit einer Nennausgangsleistung von <100 W oder einem dauerhaft auf <5 A begrenzten Nennausgangsstrom.
- Das Produkt sollte mit einem abgeschirmten Netzkabel (STP) angeschlossen werden. Absele Kabel, die das Produkt mit dem Netzwerkschalter verbinden, sollten abgeschirmt (STP) und nur für die bestimmte Anwendung eingesetzt werden. Stellen Sie sicher, dass der Netzwerkschalter vorschriftsmäßig geerdet ist.

Transport

HINWEIS

- Transportieren Sie das Axis-Produkt nur in der Originalverpackung bzw. in einer vergleichbaren Verpackung, damit das Produkt nicht beschädigt wird.

Batteriewechsel

Dieses Axis-Produkt ist mit einer 3,0 V CR2032 Lithium-Batterie als Stromversorgung für die interne Echtzeituhr (RTC) ausgestattet. Unter normalen Bedingungen hält die Batterie mindestens 5 Jahre. Bei entladener Batterie ist der Betrieb der Echtzeituhr nicht mehr ausreichend gewährleistet, so dass die Uhr bei jedem Systemstart zurückgesetzt wird. Sie erhalten eine Protokollnachricht, wenn ein Batteriewechsel erforderlich ist. Die Batterie sollte erst bei Bedarf gewechselt werden. Unter www.axis.com/techsup finden Sie Informationen darüber, was Sie beim Austausch der Batterie beachten müssen.

⚠ WARNUNG

- Verbrauchte Batterien sind gemäß den Herstelleranweisungen zu entsorgen.

HINWEIS

- Explosionsgefahr bei fehlerhaftem Batteriewechsel!
- Die Batterie muss durch dasselbe oder ein gleichwertiges Fabrikat ersetzt werden, das vom Hersteller zugelassen ist.

Reinigung der Kuppelabdeckung

HINWEIS

- Achten Sie darauf, die Kuppelabdeckung nicht zu zerkratzen oder zu beschädigen. Reinigen Sie die Kuppelabdeckung nicht, solange sie sauber aussieht, und

polieren Sie niemals die Oberfläche. Übermäßiges Reinigen kann die Oberfläche beschädigen.

- Zur allgemeinen Reinigung einer Kuppelabdeckung wird die Verwendung einer nicht aggressiven, lösungsmittelfreien neutralen Seife bzw. eines solchen Reinigungsmittels zusammen mit Wasser und einem weichen Tuch empfohlen. Spülen Sie gut mit sauberem, lauwarmem Wasser nach. Trocknen Sie die Kuppelabdeckung mit einem weichen Tuch ab, um Wasserflecken zu vermeiden.
- Verwenden Sie niemals scharfe Reinigungsmittel, Benzin, Benzol, Aceton o. Ä., und führen Sie die Reinigung nicht unter direkter Sonneneinstrahlung oder bei hohen Temperaturen durch.

Italiano

Sicurezza

Leggere attentamente questa Guida all'installazione prima di installare un prodotto Axis. Conservare la Guida all'installazione per ulteriori riferimenti.

AVVISO

- Questo prodotto Axis deve essere utilizzato in conformità alle leggi e alle disposizioni locali.
- Il prodotto Axis deve essere installato da un tecnico qualificato. Osservare le disposizioni nazionali e locali per l'installazione.
- Conservare il prodotto Axis in un ambiente asciutto e ben ventilato.
- Evitare di esporre il prodotto Axis alle vibrazioni, agli urti o a forte pressione. Non installare il prodotto su staffe instabili, superfici o pareti instabili o vibranti, poiché ciò potrebbe danneggiare il prodotto.
- Utilizzare solo strumenti idonei quando si installa il prodotto Axis. Una forza eccessiva potrebbe danneggiare il prodotto.
- Non utilizzare sostanze chimiche, agenti caustici o detergenti spray. Utilizzare un panno umido per la pulizia.
- Utilizzare solo accessori conformi con le specifiche tecniche del prodotto. Queste possono essere fornite da Axis o da terze parti.
- Utilizzare solo parti di ricambio fornite o raccomandate da Axis.
- Non tentare di riparare il prodotto da soli, contattare Axis o il rivenditore di zona Axis per assistenza.
- Utilizzare una sorgente di alimentazione limitata (LPS) sia con una potenza di uscita nominale limitata a <100 W o una corrente nominale di uscita limitata a <5 A.
- Il prodotto deve essere collegato con un cavo di rete schermato (STP). Tutti i cavi che collegano il prodotto allo switch di rete devono essere schermati (STP) e destinati al loro uso specifico. Assicurarsi che lo switch di rete sia correttamente messo a terra.

Trasporto

AVVISO

- Quando si trasporta il prodotto Axis, utilizzare l'imballo originale o un imballo equivalente per evitare di danneggiare il prodotto.

Sostituzione della batteria

Questo prodotto Axis utilizza una batteria al litio CR2032 da 3,0 V per alimentare il real-time clock (RTC) interno. In normali condizioni questa batteria ha una durata di almeno 5 anni. La batteria scarica influisce sul funzionamento dell'RTC, che viene reimpostato ad ogni accensione. Un messaggio di registro apparirà quando la batteria dovrà essere sostituita. La batteria non deve essere sostituita a meno che non sia necessario.

Se la batteria deve essere sostituita, contattare www.axis.com/techsup per assistenza.

⚠ AVVERTENZA

- Smaltire le batterie usate secondo le istruzioni del produttore.

AVVISO

- Rischio di esplosione se la batteria non viene sostituita correttamente.
- Sostituire solo con una batteria identica o equivalente, come raccomandato dal produttore.

Pulizia della copertura a cupola

AVVISO

- Fare attenzione a non graffiare o danneggiare la copertura a cupola. Non pulire una copertura a cupola visivamente pulita e non lucidare mai la superficie. Una pulizia eccessiva potrebbe danneggiare la superficie.
- Per la pulizia generale della copertura a cupola si raccomanda l'uso di un sapone neutro, non abrasivo e privo di solventi o di un detergente con acqua e un panno morbido. Risciacquare perfettamente con acqua tiepida pulita. Asciugare con un panno morbido per evitare macchie d'acqua.
- Non utilizzare detergenti irritanti, benzina, benzene o acetone, ecc. ed evitare di pulire alla luce diretta del sole o a temperature elevate.

Español

Medidas preventivas

Lea detenidamente esta Guía de instalación antes de instalar el producto Axis. Guarde la Guía de instalación para poder consultarla en el futuro.

AVISO

- Este producto Axis se utilizará de conformidad con la legislación y normativas locales.
- La instalación del producto Axis debe realizarla un profesional cualificado. Siga las normativas nacionales y locales aplicables para la instalación.
- Guarde el producto Axis en un entorno seco y ventilado.
- Evite exponer el producto Axis a vibraciones, golpes o presiones excesivas. No instale el producto en soportes inestables ni en superficies o paredes inestables o con vibraciones, ya que esto podría dañarlo.
- Utilice solo las herramientas apropiadas para instalar el producto Axis; una fuerza excesiva podría dañarlo.
- No utilice productos químicos, agentes cáusticos ni limpiadores en aerosol. Límpielo con un paño húmedo.
- Utilice solo accesorios que cumplan las especificaciones técnicas del producto. Puede obtenerlos de Axis o de un tercero.
- Utilice solo piezas de recambio suministradas o recomendadas por Axis.
- No intente reparar el producto usted mismo, póngase en contacto con Axis o con el distribuidor de Axis para los temas de servicio técnico.
- Use una fuente de alimentación limitada (LPS) con una potencia nominal de salida limitada a <100 W o una corriente nominal de salida limitada a <5 A.
- El producto se conectará mediante un cable de red blindado (STP). Todos los cables que conecten el producto al conmutador de red deberán estar blindados (STP) y diseñados para su uso específico. Asegúrese de que el conmutador de red disponga de una conexión a tierra adecuada.

Transporte

AVISO

- A la hora de transportar el producto Axis, utilice el embalaje original o uno equivalente para no dañar el producto.

Sustitución de la batería

Este producto Axis utiliza una batería de litio CR2032 3.0 de 3,0 V como fuente de alimentación para su reloj de tiempo real interno (RTC). En condiciones normales, esta batería durará un mínimo de 5 años. Cuando la batería tiene poca carga, el funcionamiento del RTC se puede ver afectado, ya que esto puede hacer que se reinicie cada vez que se encienda. Aparecerá un mensaje de registro cuando sea necesario sustituir la batería. No se debe sustituir la batería a menos que sea necesario.

Si necesita sustituir la batería, visite la página www.axis.com/techsup para recibir asistencia.

⚠ ADVERTENCIA

- Deseche las baterías usadas según las instrucciones del fabricante.

AVISO

- Existe peligro de explosión si la batería se sustituye de forma incorrecta.
- Utilice solo baterías de recambio iguales o equivalentes, de acuerdo con las recomendaciones del fabricante.

Limpieza de la cubierta del domo

AVISO

- Tenga cuidado de no arañar ni dañar la cubierta del domo. No limpie una cubierta del domo que parezca limpia y no pula nunca la superficie. El exceso de limpieza podría dañar la superficie.
- Para la limpieza general de la cubierta del domo se recomienda utilizar un jabón neutro no abrasivo y sin disolvente o un detergente con agua y un paño suave. Aclare bien con agua limpia y tibia. Seque con un paño suave para evitar las manchas de agua.
- No utilice detergentes abrasivos, gasolina, benceno, acetona, etc., y evite limpiarlo con luz directa del sol o a temperaturas elevadas.
